JP ALOE VERA TOOTH PASTE is free of animal ingredients, it is vegan.

APPLICATION

Children up to 2 years:

1 time per day, apply a pea-sized amount of toothpaste to a finger or cotton swab and carefully wipe the sensitive milk teeth on all accessible surfaces.

If you wish, you can also use special children's toothbrushes with soft bristles. Please do not exert great pressure. Then spit out with a little water.

Children from 2 years to school age:

Apply a pea-sized amount of toothpaste to a children's toothbrush 2 times a day and carefully brush all tooth surfaces and the gums.

Do not press the toothbrush too hard against the teeth.

The younger the child, the shorter the cleaning time should be so that the cleaning agents of the toothpaste do not have a too strong abrasive effect.

Children from school age and adults:

For dental care, apply approx. 2 cm long strand of toothpaste to the toothbrush at least 2 times a day, moisten with water and brush on the outside of the teeth, starting from the gums towards the chewing surface.

Then, analogously, thoroughly clean the inner surfaces of the teeth and chewing surfaces. Then rinse the mouth with water.
