

DATA SHEET

DUSTY STORM Glove

- Dusting mitt made of soft microfiber
- Practically shaped
- Ideal for household and car
- Electrostatic charge allows for easy removal of dust and hair
- For creating dust-free and clean surfaces

A specialized glove that effectively and easily picks up dust and light dirt - for creating dust-free and clean surfaces within the household and car.

PRODUCT FEATURES

JP DUSTY STORM is a cleaning glove made using a soft microfiber. It's perfect for dusting various surfaces such as wood, plastic, or other smooth surfaces. Due to the electrostatic charge it carries, dust particles are attracted to the glove practically magically. When wet, light soiling can be quickly dissolved and picked up. Due to its fine fiber structure, the glove can be easily manipulated, making it ideal for cleaning angled corners and other hard to reach places. Being a glove, this microfiber is extremely easy and convenient to use.

APPLICATION

Use dry for dusting.

Use damp for cleaning light dirt.

IMPORTANT

Please always follow the manufacturer's cleaning recommendations for the objects or surfaces you wish to clean. On leather surfaces, use damp only.

On waxed or oiled surfaces, use dry only. Not suitable for cleaning mineral cast basins.

APPLICATION EXAMPLE

Wood, plastic, chrome, leather surfaces.

CLEANING INSTRUCTIONS

Follow the washing recommendations on the fibers washing label. Max. 60 °C [washing machine].

Wash microfiber products in a WASHING BAG without adding other textiles. This is gentle on the fibers and prevents from sticking.

JOIN THE PARTY.

DETERGENT RECOMMENDATION

Do not use fabric softener or bleach containing chlorine. Do not iron. Wash with similar colors. Please do not tumble dry to prevent possible staining.

COMPOSITION

80% polyester, 20% polyamide
